

**Notations of the seminar "Superslow Processes". N.1.  
Volgograd: Izd-vo VolGU. 2006.**

**Contents**

1. I.O. Tyumentsev, Paradoxes of real and historic time. P.10-15.
2. V.M. Miklyukov, Stagnation zones of harmonic functions in narrow and long domains. P. 16-25.
3. V.I. Pelikh, Mathematical aspect of a simple marketing problem. P. 26-29.
4. S.V. Golunov, Russian-Kazakhstan border: innate, economic and social potential. P. 30-39.
5. V.M. Miklyukov, Stagnation zones of harmonic functions on surfaces and pre-Liouville theorems. P. 40-45.
6. V.I. Pelikh, Custom equations. P. 46-51.
7. V.M. Miklyukov, Stagnation zones of parabolic equation solutions and their sizes. P. 52-54.
8. A.I. Makarov, Time and tradition. P. 55-57.
9. V.M. Miklyukov, Many-dimensional weak solutions close to non-trans- parent boundary. P. 58-73.
10. N.L. Shamne, Perception, interpretation and use of time in various cultures. P. 74-78.
11. A.I. Pigalev, The Factors of the Forming of the National Character. P. 79-86.
12. A.I. Makarov, Memorials and memory: memorial function of architecture. P. 87-89.
13. V.M. Miklyukov, Sizes of stagnation zones for solutions with singularities. P. 90-92.
14. A.N. Kondrashov, On difference of functions with timelike graphs. P. 93-96.
15. A.A. Klyachin, Comparison Problem of Web Pages. P. 97-100.
16. V.M. Miklyukov, User apological. P.101-106.
17. V.M. Miklyukov, Stagnation zones of almost solutions. P. 107-114.
18. Yu.M. Perevoskina, On the article of A. Carbone, M. Gromov, "Mathematical slices of molecular biology"<sup>1</sup>. P. 113-114.
