

**Notations of the seminar "Superslow Processes". N.2.
Volgograd: Izd-vo VolGU. 2007.**

Contents

1. V.A. Klyachin, On some methods of analysis for 2D images. P. 9-16.
2. V.M. Miklyukov, "Fat" boundary. P. 17-20.
3. V.M. Miklyukov, V.I. Pelikh, How we verified results of USE. P. 21-29.
4. I.O. Tyumentsev, Some questions of contemporary researches in the Cossack hystory. P. 30-33.
5. V.M. Miklyukov, A -harmonic functions in stagnation zones. P. 34-41.
6. J.M. Tugan - Baranovskii, Stereotypes of Napoleon propaganda (Consulate épóch). P. 42-44.
7. V.M. Miklyukov, On a problem of V.G. Maz'ya. P. 45-52.
8. V.A. Gorelkin, Problems of the propaganda in Weimar Germany: theory, organization and practice. P. 53-57.
9. A.I. Makarov, On harm of distant education to formation. P. 58-64.
10. A.Yu. Igumnov, On mappings which preserve the empty ball condition. P. 65-72.
11. V.M. Miklyukov, Weak forces among chaos actions or how to scheme one's chief. P. 73-76.
12. L.A. Kazakova, V.I. Pelikh Land-reclamation of salty soils of the Lower Volga. P. 77-83.
13. A.I. Pigalev, The Renewal of Knowledge and the Erosion of Elites. P. 84-88.
14. N.G. Lebedev, Carbon nanotubes - advanced materials of modern technologies. P. 89-101.
15. V.A. Klyachin, On a generalization of the Delaunay condition. P. 102-107.
16. V.V. Yatsishen, Forming the adequate mathematical apparatus during physicist training in classic university. P. 108-112.
17. N.G. Lebedev, Quantum chemistry as instrument of modern technologies. P. 113-122.
18. V.M. Miklyukov, Effective methods of testing when a piecewise smooth map is one-to-one. P. 123-135.

19. A.A. Klyachin, On degree of convergence of minimizing area functional sequence. P. 136-142.
20. V.M. Miklyukov, Stagnation Zones in Superslow Processes. P. 143-156.
21. I.I. Kurilla, Civil Society In Russia. P. 157-164.
22. D.V. Dodin, I.G. Kovalenko, On a ontological consequence of quantum mechanics. P. 165-168.
